THE APPEAU FOR 1876.

The Memphis APPRAL has just entered on the thirty-sixth year of its ex- by rail south, 150. istence, and great as has been its popularity, and brilliant as has been its grams of the condition of the domestic record in the past, the proprietors enter upon the Centennial year with a determination to make it a great representative journal of the southwest. Notwithstanding the hard times, the circulation of the APPEAL is larger than at any previous period of its long career, and we design enlarging our field of wefulness during the present year by making the paper still more worthy of the liberal patronage it has heretofore receive I. A newspaper during the present year will be more than ever instructive and indispensable to the public. Momentous questions are to be discussed; it will be a year of agitation and extraordinary events. We will have elections, local and national, for State legislatures and governors, for a new congress, and a new President. Important events will be of daily occurrence. Stirring issues are shaping for the political contest, State and national. The APPEAL will be found abreast of all progress, fully up to the times. With no cffense to Conservatives, Liberal Republicans, or any faction opposed to the corruptions of Grantism and Radicalism, the APPEAL will from day to day preach the gospel of Democratic truth, and insist on a clean Democratic organization. The relitical drift is leading the public to understand that every man must decide which cause he will serve, and the current indicates most plainly that there will be but two parties in future elections-the one Democratic, the other Republican. There is no alternative but to choose between them. The APPEAL, Irus to its normal position and the canonized traditions of the party, re-enlists under the Democratic bauner. The Democratic party is a national party, and it should have but one and the same name throughout the Untor There is no coherence or nationality in a party that assumes different names in different localities. In the northern Blates the enemies to the corruptions of Radicalism, call themselves Democrats; in Virginia, Conservatives; in Tennessee, Democra's and Conservatives; in at the statistical report of stocks of proo.her States, Democrats and Liberal-Republicans. When a party thus assumes different names, it becomes a jarring faction, made up of odds and ends, without homogeneity or nationality. Entertaining these views, we shall discard all appendages to the name of Democra; and ally ourse'ves with the National Democracy. Already its banner floats triumphantly in the breeze. National Democrats demand an immediate cessation of the brutal military tyranny over the south; that the iron heel of the des- | 55c. Exchange is in only moderate supply, as is to be expected after the interruption of the cotton business by the holidays. New Orleans exchange was scarce, and it was said a little looking round would result in the discovery of opportunity to dispose of it at 1 discount. This is a mere temporary occurrence, however, and the regular buying rate continues to be 1 discount on New York and 1 discount on New Orleans, while checking on all quarters remains at par. Gold was 112 in New York yesterday morning, but at noon had advanced to 117%; ar s brokers were offering 1114 Scrips bonds, and stock received no spec'al actention, and we repeat quoiations:

THE PRODUCE EXCHANGE had a fair attendance yesterday morning, but the merchandise were not heavy, although sufficient for requirements. Much gratification is expressed duce reported on the blackboard by the indefatigable secretary of the board, Mr. Kehoe. The articles on the list that principally drew attention were the amount of bran, 6283 sacks, 1500 sacks of corp., 200 barrels of cornmeal, 23,600 barrels of flour, 5000 bales of hay, 2400 sacks of oats, 26,700 barrels of potatoes, seph, 21½; Union Pacific bonds, 163½; and 7600 dozens and 112 boxes of eggs; of butter there was only 619 packager. In a word, the APPEAL will be a firstclass, live newspaper, complete in every made dull by the recent warm weather. Flour is heavy; the Decamber circular of Krk & Co., St. Louis, says the oppression has been such as is rarely seen, and extreme duliness is now the prevaliting feature, low grades only being in demand. The most prolific source of trouble is the use of so much upsound and damaged wheat by the millers, which accumulates heavy stocks of flour, entailing low-down prices, but western markets have worked off most of their bad stock. Coffee, says the New York Commercial Grocer, of Saturday last, quotes ic lower; the stock of it increa-All communications should be adses; receipts have fallen off, but it is because there are no buyers in blo.
